Ed,

No, I won't be at the meeting tonight, but would appreciate anything you could email.

Regards,

Gary Miller

Gary,

Will you be in the Highlands for tonights Community meeting?

If so, we can spend 5 minutes on a quick overview of the process.....and to answer you question in your email.....YES.

If not, I will organize the information for you.

Looking forward to meeting you,

Ed

Ed,

Can you provide any information on what the treatment process is, and whether it can be applied for removal/treatment of dioxin/furan from sediment & soil? Also, any reports on previous field applications for dioxin in sediment would be appreciated.

Thanks,

Gary,

I was recently contacted by Ed Davalle regarding remediation of the Waste Pits and technology to potentially solve the "what do we do with the waste?" question. Forwarded in this email is the letter I received from Ed and I will also forward the second email with the attachments referenced below. In case this *is* a viable remediation technique, I have copied Rock Owens with Harris County on this email to share the information.

Thank you,
Jackie Young
